

DAPTC – Survey

Many months ago, Steve Clarke and I as Clerk were invited to assist DAPTC to fine tune a survey for Town and Parish Council regarding a research project exploring the status and prospects of towns and larger parishes in Dorset since the 2019 reorganisation of local government.

After the initial survey was compiled, it became apparent that the survey was not appropriate for all Town and Parish Councils alike. So, a second draft was created just for the smaller Parish Council across Dorset. The initial survey was sent to Town and larger Parish Councils through Dorset.

Once the survey results had been compiled Steve and I were invited to attend a feedback session in Weymouth and or Corfe Mullen. I attended Weymouth and Steve Corfe Mullen.

After the feedback sessions Steve and I meet with Neil Wedge to discuss possible amendments on the second draft survey. At present Neil is working on a final draft version and this will be sent out shortly.
